Three Willits Women Arrested as Thieves

WILLITS, May 14.—Three local women were found under conditions which lead the authorities to believe they were stealing chickens last Thursday night at the home of Chas. Allen just south of town.

Mr. and Mrs. Allen were in their house when they heard a commotion among the chickens in the henhouse. Mr. Allen got in his automobile and started a short distance toward town, parked his car, and then walked up the creek towards his home. When he reached the henhouse he heard women talking inside and ordered them out. They refused to come out and he then pulled his flashlight, opened the door of the henhouse and found two of our women. An older woman, mother of one of the young women, hid in a manger.

A warrant for the arrest of all three women was issued by Judge H. M. Burke the following morning and the women were placed under arrest on a charge of attempting to steal chickens. They are at large on their own recognizance and their trial is set for Tuesday of next week.

The two young women have small children and if found guilty it will be a problem to handle their cases without causing innocent parties to suffer.

For some months chicken thieves have been robbing ranches and homes scattered all over the valley and these particular women are accused of selling chickens to our restaurants and hotels in wholesale quantities.

Market Exchange to Discontinue Activity

At a meeting of the farm bureau marketing exchange held last Monday it was decided to discontinue the activities of the exchange for the time being. The exchange was organized in 1922 by certain livestock men and ranchers of the county. In the course of its existence it has become the dominating factor in livestock marketing in Mendocino, Sonoma, Lake, Humboldt and Trinity counties. From a gross annual business of $90,000 in 1923, it grew until it transacted an annual average of $200,000 in the last four years under the direction of E. W. Stephens, market director.

At one time practically all stock sold from this county was penalized from one to three cents a pound on account of poor quality. Now a premium is paid on practically all Mendocino county stock shipped.

Mrs. C. N. Mortenson left this week for Oakland, where she will visit her sister, Mrs. Harvey Bell.

Mrs. Greene Burke, who was ill with influenza for two weeks, was able to resume her duties in the auditor's office the first of the week.

Potter to Vote on Irrigation Bonds Tuesday, June 12

Special Election Will Be Held to Authorize $100,000.00 Issue by District

PRELIMINARIES SETTLED

In another column appears a notice of a special bond election to be held on Tuesday, June 12, in the Potter Valley Irrigation District to determine whether the bonds of the district shall be issued in the sum of $100,000 to completely install the system of works. This election has been called by the board of directors under the requirements of the law that such an election must be called when a petition for that purpose has been filed containing signatures representing over 50 per cent of the land owners, both in number and in assessed value. Such a petition was filed with the board of directors of Potter Valley Irrigation District at their regular meeting held on Wednesday night.

The entire scheme for the irrigation of Potter valley was placed before the California bond certification commission and an examination of the district was made by the engineers of the commission, and an authorization issued for permission to hold an election to vote on the proposed bond issue. The bond commission found that all the proceedings were regular, and that the district had a contract for a sufficient supply of water to meet its needs.

It is expected that there will not be any serious opposition to the bond issue for the reason that the property owners living in the district, and those owning property but living outside of the district quite generally signed the petition for the election. It is anticipated that when the bonds are voted application will be made to have them certified as legal investments for savings banks and that contracts will be

GEORGE DAVID GETS NEW DELIVERY ROUTE

George David, who at present has the rural delivery mail route south of Ukiah, has been appointed to be the carrier for the new route to be established between Ukiah and Calpella.

The new route will be put into operation on June 1 and will serve all the families between Ukiah and Calpella on both sides of the Redwood highway, some eighty in number, it has been estimated.

H. Olsen and wife and John Gschwend were over from the Philo section last Monday. All are prominent residents of that portion of the county.

New Hotel Planned By Two Covelo Men

COVELO, May 14.—Covelo is to have a modern hotel with every modern convenience, something which has been very badly needed.

The Hill brothers, Raymond and Tom, have had plans prepared for a modern hotel which will be located in the Covelo civic center and correspond with the other buildings in that section.

The old livery stable will be torn down and the new modern hotel will be erected on that site. We are informed that the hotel will be a two-story structure and the outside finish will be stucco.

Covelo has been without proper hotel accommodations since the fire 22 years ago destroyed the old Gibson house. No community in the county feels the need of a good hotel more than Covelo and the Hill brothers will fill a long felt want.

On account of the isolated position of Round valley a good hotel is probably the most urgent need. At present a crowd of more than ten people have to sleep in tents or be taken in by people living in the town.

We understand that Mr. and Mrs. Tom Hill will conduct the hotel and this is sufficient guarantee that the institution will be handled in the most satisfactory manner.

NEW CAMP GROUND

George Johnson has leased three acres of the old racetrack from Cunningham & Thomas and will establish a campground and service station there. The tract borders the highway and will be turned into one of the most attractive campgrounds in the state.

BUYS NEW BUICK

C. P. Smith today took delivery from the Ukiah Auto Supply of a bran new Buick car.

Hospital Employee Drops Dead on Trip

William D. Phelps, an attendant at the state hospital at Talmage, dropped dead while fishing on Big River last Thursday.

Phelps and a companion, named Cherry, were fishing near the Hell Gate dam. Cherry was above Phelps on a rocky bluff, when he noticed that Phelps was in great distress. He clambered down the bluff and got to Phelps just as the latter expired, exclaiming, "O, my heart!"

No inquest was held, as Phelps's death appeared to have been from natural causes.

EARL COX SELLS RANCH

Earl Cox this week sold his ranch south of town to A. E. Pennington, of Navarro, who will take possession at once. The place comprises 14 acres, ten of which are in bearing vineyard.

Mr. and Mrs. Cox will move back to their home in Oak Park.

G. Louderback, proprietor of the Pickwick cafe, was able to be out again the early part of the week. He was dangerously ill with blood poisoning for two weeks.

GREENWOOD WINS IN SUNDAY GAME

With a score of five to three in her favor, Ukiah went into the ninth inning of the game with Greenwood Sunday looking like a winner. When the smoke of battle had cleared away at the end of the ninth, the coast sluggers had added five runs to their score and Ukiah had lost the game by a score of five to eight, being unable to score in her half of the final frame.

The game was not what would be called "a pitcher's battle." Both twirlers were slammed all over the field and there were only seven strikeouts during the entire game. Hansen, Ukiah, is credited with only two of these. To aid the good work, his team mates booted six chances and made several wild heaves. There were 21 hits during the game, so it may readily be seen that the fielders had a plenty to do. Five of Greenwood's tallies were made on two errors, a walk, a hit batsman, a passed ball and a three-base hit.

Next Sunday the locals take on Healdsburg and it is to be hoped that Hansen does not have another "off-day."

Mrs. Royal S. Ryder and daughter, Elizabeth, were visiting friends in Lakeport last Sunday.

Ukiah to Enter Man In Indian Marathon

Ukiah has definitely associated itself with the Redwood Empire Indian marathon race by entering Joe Myers as a contender. Myers is training diligently, in fact, has been for the past two months, and he looks and acts fit for a good account of himself. Louis Lockhart, well known to everyone in Ukiah, is training Joe Myers, and according to the statements of many who have passed Myers doing his road work, Louis is going to have Myers ready and fit when the starting gun sounds at Sausalito on June 14.

Ukiah will be given a pretty good line on the ability of Myers after the "Baby Marathon" race of 28 miles which is to be staged from Napa to Calistoga on Sunday, May 20, at 10:30 a. m. Myers has been entered by Ukiah in this preliminary test of marathon entrants, and it is understood that 20 Indians will toe the starting line next Sunday.

Humming Bird, Healdsburg's entry, and Mad Bull, winner of last year's classic, are two of the twenty who will give Myers, known as "Chief Ukiah" in the race, a hard battle for honors.

In this "Baby Marthon," Napa is offering $100 to the man finishing first, $75 for second and $25 for third place.

JOHNSTON TURNED LOOSE

Joe Johnston, of Willits, held in jail on a statutory charge preferred by a young girl of Willits, was freed yesterday on the motion of District Attorney Gibson. Gibson stated that the evidence was insufficient to obtain a conviction.

It is stated that the complaining witness became considerably tangled in her dates and other important points, and as there was no evidence aside from her uncorroborated word on which to proceed, the district attorney did not think that a conviction could be obtained.

Varied Program at State Next Tuesday

Another highly attractive program will be put on next Tuesday evening, Vaudeville Night, at the State theatre. There will be variety enough to please everybody.

George Muse, violin virtuoso, presents a product of the Redmonds, in a worthwhile repertoire of musical hits. This is a pleasing and entertaining offering.

The Rudacks appear in a series of song and dance interpretations. They are a yong couple with a series of up-to-date dances and a song or two interpolated—a snappy duo. They do a clever stair dance, and a burlesque boxing skit is another highlight in their act.

The Dixie Strutters appear in Darktown Follies. They are a company of colored song and dance artists in a revue of up-to-the-minute hits with plenty of costume changes.

Lorenzo, the Whistling Wop, is a character singing, whistling and minstrel bones novelty. Lorenzo appears as an Italian character, sings, whistles and plays the minstrel bones. He has played all the leading circuits of the country and comes highly praised.

LION MEETS LION THIS AFTERNOON

Santa Rosa Lions have challenged the members of the local den to a contest on the diamond. The local fans rallied at the call and have been playing baseball with their sons for the past week getting into training.

It is reported that Santa Rosa is bringing up to pitch for her team, Walter Nagel, former big leaguer. So sure are they of the power of this winning card that they have offered to bring flowers.

Believing that height is one of the chief characteristics of a pitcher, Fred Falkenberg has been chosen to throw the pill for the local team. Henry Spurr will stand behind the batter. Irving Brazier, president of the Lions, has undertaken to put the opposing team out at first base. Not taking him at his word, E. A. Eversole will guard the second base and "home runners" will meet George Vevoda on the third bag. D. M. Grant is short and the fielders are F. D. Patton, Willis Prather, Joe Figone, F. J. Parker. All local physicians will be in attendance and special rates will be given by Ukiah General hospital.

The local team hopes to have more rooters than Santa Rosa and is relying on this power to carry them through to victory.

Outlines Policies to Be Followed by Montgomery Ward

H. H. Hope, Representative of Ukiah's Prospective New Store, Visits Here

TO EMPLOY LOCAL FOLKS

H. H. Hope, representative of Montgomery Ward & Co., was a Ukiah visitor this week. Mr. Hope stated to the Dispatch that his company expects to open here on June 23.

According to Mr. Hope the big chain store will employ from ten to twenty people, most of whom will be Ukiah people. Work will be commenced immediately remodeling the entire ground floor of the Masonic temple, which is to be occupied by the new concern.

Mr. Hope stated that Ukiah has been selected as the site for one of these stores on account of the fact that it is conveniently situated and easily accessible to thousands of people in this trade area.

"We wish to take a place as part of your community," said Mr. Hope." Each of our stores considers itself a part of the community which it serves, employs local persons, studies local needs and more than half of its merchandise is purchased west of the Rockies. We aid in every way in seeking to extend the trade area of any community where we locate."

The initial stock for Ukiah will comprise from five to ten carloads of merchandise. Not all of the 33,000 items listed in their catlogue will be carried here, but everything for which there is a demand in this section will be sold over the counter. Tires, auto accessories, parts, washing machines, hardware, house furnishings, etc., will be specialized in.

The local manager as the official representative of Montgomery Ward & Co. will be empowered to make adjustments and to back up the company's slogan of "satisfaction guaranteed or your money back."

PROGRESSIVE BAND IN FIRST APPEARANCE SUN.

The Progressive Italian Band made its first public appearance last Sunday and greatly delighted all who had the pleasure of hearing it. This new musical organization is now entitled to take its place in the community life where it will be warmly welcomed, and a great deal may be expected from it henceforth.

The picnic held in the afternoon was a big success and was well attended and much enjoyed.

Alex Pacini, secretary of the band, states that they are now planning to take part in the Fourth of July parade and have other appearances in prospect.

Mrs. Sarah Pinches Dies at Laytonville

LAYTONVILLE, May 16.—Mrs. Sarah Pinches died here last Monday and was buried yesterday afternoon. She was born in England, December 26, 1851. She was married to Samuel Pinches 57 years ago. They came to this county shortly after their marriage and settled in Long valley, Mendocino county, in the early seventies. Ten children were born to this union, seven of whom and the aged father survive.

The descendants consist of seven children, 23 grandchildren, 17 great-grandchildren, and one great-great-grandchild, most of whom are now living in the vicinity of Laytonville.

Mrs. Pinches was a splendid type of a woman and bore the love and respect of all who knew her. In addition to her heavy family duties she could always find time to visit those who were sick or in distress and was a splendid type of a Christian, which faith she professed early in life.

The funeral services were held at her late home Tuesday afternoon and the remains were laid away for the long rest in the Laytonville cemetery beside the loved ones who had passed on before.

Bill Hagans has gone to Yosemite valley, where he will be employed for the summer at Camp Curry.

Supervisor Chas. Perkins came over from Fort Bragg on official business the first of the week.

Pickwick to Abandon Three Freight Lines

Pickwick Stages System has applied to the Railroad Commission for authority to abandon its auto freight service between Willits and Garberville and intermediate points, Eureka and Red Bluff and intermediate points, and Eureka and Freshwater and intermediate points. Applicant alleges that it is engaged primarily in the transportation of passengers, baggage and express, rather than in the transportation of freight by auto truck, and that the service does not warrant its maintaining an operator specializing in freight transportation, and that public convenience and necessity no longer will require operation over said route.

H. T. Hopper and Mr. and Mrs. Bunt Cox leave the 25th for a trip to Alaska. Following their return they will tour the Yellowstone park region. They will be away the greater part of the summer.

Harry Gilmore has been in the hospital at March Field for a week, the result of throwing his knee out of joint while playing baseball on the aviation field.

ROUND VALLEY

COVELO, May 16.—C. A. Lodge of the high school faculty was ill from ptomaine poisoning on Monday.

The officers of Abell Lodge, F. & A. M., of Ukiah will come to Covelo on the evening of June 2 to put on the third degree work for the lodge here. They will bring their own candidate with them. Dinner will be served at the hall by the wives of the Masons.

Mrs. Agnes Rhoades, who has spent the winter with her parents, Mr. and Mrs. C. H. Hurt, left Tuesday for Hughson to visit her daughter, Mrs. Naomi Norton.

The road from Laytonville to Covelo has been recently scraped. Travelers report it in excellent condition.

L. L. Sanders was a business visitor in Ukiah Tuesday.

Mr. and Mrs. G. R. Redwine and Mrs. Merry O'Ferrall are in San Francisco this week where they will witness the graduation of Marvin Andrews from the dental college.

Nate Lovelace was in Covelo for a short time on Tuesday in the interest of repair work on the Round valley highway.

Ray Short, traveling salesman for a hardware firm, stopped for a little fishing on his way into Covelo Tuesday, locking his car and leaving it by the side of the road. When he returned with his catch his key was missing. He spent the best part of the day maneuvering to get his car open. Finally he was compelled to smash the glass door in order to get in and continue his journey.

Mrs. E. V. A. Murphy arrived from Los Angeles on Tuesday where she spent the winter months.

The fifth and sixth grades of the grammar school, with the high and grammar teachers as guests, plan a weenie roast party for Thursday evening at the Hamilton swimming hole.

Principal L. B. Sarasin and his mother arrived home Tuesday in a new car from a trip to the city.

G. M. Biggar, J. S. Rohrbough, J. B. Bellatti, D. T. Johnson and Charles Hemenway went to Ukiah Tuesday as a committee from the Round valley farm center to the board of supervisors to ask for the formation of a joint road district with Glenn county to complete the Round valley highway. They found little sympathy for their cause, which vitally affects the future of our valley. The community is much depressed over the results. Any other method that can be employed will cost the county more money, since state aid may be secured only through the plan presented.

The Masons decided at their meeting on Tuesday to put on their public school week program at an early date, to be determined by the convenience of the county superintendent of schools, who is to be a speaker.

COVELO, May 13.—A keen and healthy interest was evinced by the members of the Round Valley farm center who gathered for the regular May meeting on Monday of last week in three important topics up for discussion.

J. B. Bellatti, chairman of the dairying committee, gave a detailed report of the testing done by Dr. Wardlow of the Federal Department of Agriculture. Six herds, belonging to G. M. Woods, S. W. Walter, T. H. Cyrus, Omar Bates, J. I. Hurt and J. B. Bellatti, are on the fully accredited list. Twelve other owners will join this list as soon as the proper time has elapsed for giving the final test required by law. There are now more federal accredited herds in Round valley than in any other place of its size in California.

A careful record is being kept of the reactors in order to trace the source of infection. Each reactor at this testing was found to have come from a herd whose owner had refused to test, or who having tested had failed to clear out the infected animals. The history of each infected animal was read to the center. Careful dairymen will avoid acquiring stock from these sources. An instance was presented of a buyer who purchased an untested heifer for $35 in Round valley, had her tested, and resold in a few days for $80.

Assistant Farm Advisor Foote spoke at some length on the relative value of selling whole milk, or skimming and feeding the skim milk. Statistics presented showed greater profit from the sale of whole milk. He urged improving the quality of the product by T. B. testing, cleanliness and refrigeration, and seeking more distant and better markets.

He spoke further of the importance of T. B. testing. It is not compulsory for the federal department to do this work. They have come to us because this is a relatively free area. It is most important to the dairy industry that this section maintain that record. Dairymen near the large cities cannot afford to grow their own stock on account of the greater expense of feed and pasture. At present Los Angeles goes to Oregon and Wisconsin for its stock. If we reach the standard of a tubercular free area she will come to us as the nearer market. Point Arena, he said, is already agitating a county wide tubercular area. Three counties, Modoc, Lassen and Tulare, have already established such areas.

On motion of L. B. Sarasin, seconded by D. T. Johnson, the center voted to go on record as desiring to make the entire county a tubercular free area, asking the board of supervisors to request the state authorities to make the proper tests to establish this area.

G. M. Biggar, chairman of the road committee, presented the topic of the formation of the joint highway district with Glenn county, and the prevailing lack of understanding of the benefits to be derived from such an organization, as well as the safeguards in the law to prevent foolish or precipitate action when once the district has been formed. After a lively discussion of some length, on motion of F. C. Coates the center voted unanimously to send a properly qualified representative to the board of supervisors at the May meeting to urge the formation of this joint highway district. The motion named G. M. Biggar as chairman, and he was directeed to appoint his committee. J. B. Bellatti, Charles Hemenway, J. S. Rohrbough and D. T. Johnson were named on this committee.

Charles Hemenway reported for the drainage committee. G. W. Goforth and G. M. Woods have been named as the other members of this committee. The committee has planned to cut the brush that obstructs the flow of water in the creek beds. Owners have volunteered to do this work on their own land. In the fall the committee will use tractors to clear the brush away to be burned.

The question of fire protection will be discussed at the June meeting. Further details of a program will be arranged by the advisory council.

William Henry passed away at his residence in Covelo on Saturday, May 12, 1928, at 5:30 o'clock, after a brief illness. His children had been summoned to his bedside at the beginning of his illness and remained until the end.

Mr. Henry was born in Ireland July 4, 1857. He came to Mendocino county forty-six years ago, landing at Cape Mendocino. After ten years residence he went again to Ireland to visit his people. When he returned from this trip he was accompanied by a very charming bride, who has shared his joys and sorrows to the end.

To them were born three children, Clyde of Point Arena, Doris (Mrs. Bolden of Fort Bragg, and David, who is principal of a grammar school in Napa. One grandchild was born to Mr. and Mrs. Clyde Henry last winter.

Mr. and Mrs. Henry came to Covelo three years ago to operate the electric light plant established here by their son, Clyde. They have made many warm friends during their residence here who feel a personal grief and loss at his passing and who extend an understanding sympathy to the bereaved family.

The body was taken to Fort Bragg for burial.

Pastor R. M. Lippert of the Presbyterian church spent the week end at Island Mountain, the guest of the Philo Short family. Lawrence and Miss Audrey Short accompanied him for a brief visit with their parents. The party returned on Sunday afternoon.

The Sunday morning service at the church here was conducted by Principal F. C. Coates of the high school. Mr. Coates presented an interesting discussion of the subject of education, showing how the boy and girl of today determine the progress of the world of tomorrow. He made a plea for the unification of our community through the schools and through the establishment of a common bond of interest such as a public library or a local paper.

The Better Homes and Gardens committee of the Women's Improvement club wish to express sincere thanks to each and every one who aided so cheerfully and efficiently in staging the May fete picnic. The list of helpers is so long that we cannot name them individually. The spirit of cooperation was so genuine and hearty that the members of the committee feel that it was a privilege and a pleasure to be permitted to direct the proceedings.

The net returns from the sale of ice cream, lemonade, candy and lunches and from the dance in the evening to which the musicians generously donated their services, amounted $69.65. This sum has been placed in the bank to the credit of the committee. Garden prizes and other necessary expenses will be met from this sum, after which the balance will be used to continue the work of the committee or turned over to some other department of club work.

May 25 has been designated as the date for closing entries for garden prizes. Judging will be done at some time between that date and June 4, at the convenience of the county farm advisor's office which has consented to take charge of this feature. Awards will be made at the June meeting of the farm center, at which time the garden committee will serve refreshments.

First and second prizes of $5 and $2.50 will be offered in four events, window gardens, flower gardens, vegetable gardens, and dooryards not having available water for gardening but conspicuous for neatness. A copy of the judges' score card may be had upon request to the secretary, Mrs. G. M. Biggar. An entrance fee of ten cents will be charged for each event. Enter your garden early. The latest date is May 25.

The next meeting of the Women's Improvement club will be held in the auditorium Saturday, May 19, at 2:00 p. m. The meeting will be in the nature of a farewell party for Mrs. Douglas Robinson, who is leaving at the close of the school year for her new home in Inyo county. The program will be under the direction of Mrs. B. L. Hurt, with Mrs. Carrie Gray, Mrs. Erma Hurt, Mrs. Frank Goforth, Mrs. Carrie Ornbaun and Mrs. Hattie Tuttle as assistants. Members of the executive committee will also assist.

Impressive Mothers' day services were held at the Presbyterian church on Sunday evening in the presence of a well filled house. Flowers in profusion decorated the altar and everyone present wore a flower in honor or memory of a mother. The high school glee club sang a beautiful selection in tribute to motherhood. Pastor Lippert used the theme for pressing home some wholesome practical truths to the hearts of his hearers.

Much adverse criticism is being heard of the action of the grammar school board in dropping from the faculty two teachers whose work for a number of years has been of outstanding excellence.

Mrs. Caleb Brush is featuring rose culture in her delightful garden. Two specimens have been on exhibit at the Biggar Mercantile Company, one, the Golden Emblem, an exquisite yellow; the other, Hoosier Beauty, a rich, deep red.

Neighbors who have visited the home of Mrs. S. E. Hamilton near the outlet are saying that the first prize in the coming garden contest is already hers.

W. S. Osborne is sowing lawn on his home premises north of the grammar school.

Mrs. Laura Russell has secured a good stand of white clover in a new made lawn on her premises. Joe Hurt has spaded and laid out walks on the lot adjoining, which will be seeded to clover the coming year.

G. H. Ells has cut the grass from the street line outside his fence, and is making good use of an old fashioned scythe to get rid of weeds in the uncultivated part of his lot.

E. F. Rohrbough has spent much time landscaping the yard surrounding his premises. A variety of shrubs and flowers have been planted and a good lawn is started.

The Lipperts are putting in some vigorous work at the Presbyterian church and manse. Apple trees and Concord grapes have been planted. Flowers have been planted on the north side of the church and beds of perennials completely surround the manse. There is a fine assortment of columbines. Sweet peas are everywhere. A great bed of roses has been started with the plants in healthy condition. Asters are soon to be transplanted.

J. B. Bellatti had the misfortune to nearly sever the end of a finger Monday while repairing a moving machine.

Roland Hurt is home after a semester at the University of California.

Miss Mary Montgomery, who came up from San Francisco to assist in nursing in the William Henry home, will return to the city the first of the week.

Mrs. L. A. Toney is home again much improved in health and strength after a winter spent in Lake county.

Mrs. Albert Winters spent a few days with her family here recently, having come down from Yreka to be with her son, Grant, who has been under medical treatment for some months. Her daughter will graduate from the Yreka high school soon, after which mother and daughter will become residents here.

Mrs. Laura Russell and Miss Viola Hagne drove to Santa Rosa last week to attend the commencement exercises attendant upon the graduation of Miss

How absurd you say. But not so at all. Her Electric Range with its automatic time and temperature controls is doing the cooking automatically, while she is away from the kitchen.

New rates make electric cooking very economical
The current will turn off at six. All this is done electrically while she is playing cards, motoring or shopping.

It represented a scene in the redwoods of Mendocino county. Besides the redwood scene the poster carried the pictures and names of the officers and senior sponsors of the club, with the name and date of organization and number of members. The printing data was the work of Miss Mary Bedford. The officers whose names and pictures appear on the poster are: Miss Anna Gilmore, president; Miss Virginia Benjes, vice-president; Miss Katherine Held, secretary; Miss Madge Mead, treasurer; Mrs. F. "My Dear Miss Gilmore:

To you and all the girls of the Ukiah Juniors I wish to extend my hearty congratulations on the winning of the Junior Trophy.

Miss Harper of Eureka received it in your name and will deliver it to you.

Your poster is a dream of beauty. When one locked at it all others seemed insignificant and commonplace beside it. It was greatly admired by all.

I am sending all the posters to San Antonio for the Biennial and will then return each one to its rightful owner, sometime in June.

Our conference was a great success and my only regret was that all the Juniors could not attend.

Assuring you of my real pleasure in your success in capturing the trophy and hoping that you will like it, with kindest regards, I am

Signed:
BLANCHE SCOTT."

Copies of the health rules were sent to all the schools that will be represented at play day today and emblems will be awarded to all the girls who have made the points in the contest. These emblems are symbolic and very attractive.

HISTORY OF DAY

Play Day is new in this country. It grew out of dissatisfaction with interschool competitive contests for girls. Due in the great part to the lack of adequate medical supervision in many schools, physical educational leaders recognized the need of some system that would eliminate the competitive system and yet act as an incentive and develop play for play's sake.

RECOGNITION

Miss Magill is receiving state-wide recognition for the work she is carrying on in this high school. The crime of which he was convicted occurred in San Francisco, according to the contention of Attorney Charles Kasch, representing Bihn, and Judge Preston has upheld Kasch's point.

Liquidating Business

The latest reports from Willits state that the Northwestern Redwood Company is liquidating its business as rapidly as possible.

Rumor has it that Mrs. Amy Requa Long, who already has made some large investments in that vicinity has an option on the Foster interests in both of the Willits banks and the Willits Mercantile Co.

It is said that the U. L. Co. has an option on the timber holdings, most of which join their own.

About a month ago the N. W. R. Co. sold all of their pedigreed cattle and discharged their ranch foreman, Jeff Owens, who had been with them for 25 years.

A few weeks ago a crew of men removed every piece of belting in the Diamond D mill and stored it. It is also reported that the machinery in the mill will be sold to another lumber concern.

Contracting for Lambs

A buyer from Red Bluff, representing a large Sacramento valley firm, is on the coast this week looking over the lamb situation and endeavoring, where possible, to secure early lambs under contract.

He is contracting lambs for delivery up to July 1 and it is understood that he is offering 11½ cents for lambs delivered at Fort Bragg.

There are quite a number of early lambs on the coast so that it may be possible to make a shipment by June 1. Most of these coast lambs, however, will not be ready until July. About 150 Anderson valley lambs are reported to have been sold at Cloverdale some days ago for $13.50 a head.

New Principal

Mr. Stanford Hannah of Denair, California, has been elected to the principalship of the high school next year. Mr. Hannah has had seven years' experience in school work, three as a teacher and four as a principal of high schools in Montana. His education was acquired at Montana State College, Northwestern University and University of California at Berkeley. During the war Mr. Hannah served two years overseas with the Marine Corps. Mr. and Mrs. Hannah and their two children will come to Mendocino to live during the first week in August.

Two Pioneers Die

POINT ARENA, May 10.—The funeral services of Henry Anderson were held last Friday in the Fish Rock cemetery where many friends gathered to pay their last respects to the departed.

Mr. Anderson has been a resident of the south coast for many years and leaves a wife and three grown children.

When the steamer Caspar was wrecked at Hearn Beach, thirty years ago, Mr. Anderson and Theodore Johnson rowed out in a small boat and rescued the sailors who had drifted to sea, clinging to floating timbers. For this act they were awarded a medal by the government.

Charlie Dock Dies

Charley ock, the last Chinese resident of this place, died Wednesday in San Francisco where he has been receiving medical treatment for several weeks. Charley came to Gualala at the age of nine years and has been here over 60 years. He has had a store in town about 30 years. Charley had a good memory and was quite an interesting talker when started on early times of this vicinity.

Suffers Stroke

Mrs. Rose Wainwright suffered a stroke of paralysis at the home of her daughter, Mrs. Rose Pegg in Berkeley this week and her daughter, Mrs. P. Daniels of this place left Tuesday for Berkeley to be with her mother.

Mrs. Wainwright made her home in Mendocino for some years up to a few years ago and has many friends here who will be grieved to learn of her illness and hope to hear of her early improvement.

George McClintock Burned When Powder Explodes

George McClintock was painfully burned on the left hand and arm and also on the side of his face Tuesday afternoon. He was engaged in burning a trash pile in the yard of his home and had a paper bag containing some gunpowder lying on the ground. He picked up an armful of trash to throw it on the fire and unknowingly picked up the bag of powder with it. There was a loud explosion followed by a sheet of flame as the powder ignited. It burned his face and eyebrows but fortunately did not injure his eyes. Dr. Leidig was called and dressed the burns which were exceedingly painful.

Highway Improved

The road from the Mountain House to the mouth of the Navarro river, recently taken over by the state, and known as the McDonald-to-the-Sea highway, is undergoing extensive improvement. The 12 miles of highway put in some years ago is in fair shape and narrow places are being widened out. A gas shovel and trucks are in use daily there and a great improvement is being made. The road from Navarro to Boonville is also in fair shape but there is room for improvement, which, it is understood, will be made as soon as the state road crew that is working on the road can get there. They started at the Mountain House and are working this way. From Boonville on the road is in excellent condition as far as the road crew has worked. Narrow places in the road have been widened and sharp curves eliminated. Fills have been put in and the road generally improved greatly. The long hill just before reaching the Redwood highway has been put in an excellent condition and the narrow places widened. About four miles from Yorkville a strip of new road has been built that is the outstanding improvement of the whole road. At this particular place the former road was narrow and had many turns. The new piece of road, which is approximately one quarter of a mile long, is straight and is wide enough for four cars abreast.

Sunday last the road was lined with parked cars and their occupants were trying their luck at fishing in the nearby streams. It doesn't take long for the motoring public to find out about good roads and now that the McDonald-to-the-Sea highway is being improved it looks as though the Mendocino coast is to receive its share of the tourists, who heretofore have taken other routes where there are good roads. The Mendocino coast provides hunting, fishing and camping places that are hard to be equalled, together with scenery that will please any eye. What more can any tourist ask

15,000 Sheep in Co. Treated for Fluke

About 15,000 sheep have already been treated in Mendocino county for liver fluke. These worms live in contaminated water and all kinds of stock may become infected, but the disease seems to be worst with sheep, goats and deer. The flukes enter the livers of these animals and soon destroy them. It is said that a ewe generally lives only three months after being infected.

Scientists have been working on this problem for a number of years and have finally discovered a remedy that makes all kinds of animals immune. The remedy is a soluble capsule that contains carbon tetrachloride and one of these dropped down the throat of the infected animal works a cure.

Any stockman in Mendocino county who is interested can get further information by writing to Farm Advisor C. S. Myszka at Ukiah.

Mrs. Hartsook Faces Auto Traffic Charge

Mrs. Fred Hartsook, of Hartsook's resort on the Redwood highway, was arrested last Saturday at Santa Rosa as the aftermath of an automobile collision near Hopland Friday night.

While Mrs. D. T. Waller, the complaining witness, alleges that Mrs. Hartsook was driving an automobile while under the influence of intoxicating liquor, the charge placed against her is reckless driving. She was taken before Judge Clendenin of Hopland Monday and gave bail in the sum of $250. The penalty if convicted is a fine up to $250 and revocation of driving license for thirty days.

Mr. and Mrs. Waller were parked alongside the highway at the foot of the hill south of Hopland when Mrs. Hartsook is alleged to have collided with their car, bending the front axle and badly damaging the Waller car on one side. Mrs. Hartsook's car ran into the ditch and stopped after the collision.

Before the officers could be notified, she was taken to Santa Rosa by a passing motorist. There, it is stated, she registered at a small hotel under an assumed name.

250,000 Trout Fry to Go to Rearing Ponds

Cloverdale's 250,000 trout fry, this year's allotment for the rearing pond of the Northern Sonoma County Fish and Game Protective Association, will arrive Wednesday, May 23, according to a letter received yesterday by Captain Henry Lencioni of the fish and game patrol. The fish, in the state's fish car, will reach Cloverdale on the 11:59 p. m. train that night.

Preparations are being made by the Cloverdale sportsmen to have their rearing pond, in the river east of the city, ready for the small fish when they arrive. Handling and planting of the fish will be supervised by Lencioni.

The shipment will consist of 150,000 Loch Leven and 100,000 German brown trout, this being all the fish that the commission could allocate to Cloverdale this year. Last year 400,000 were reared there.

The fish will come from the Mt. Shasta hatchery.—Press Democrat.

Enduring as Torrey Pines

Use Cycol and avoid frequent valve-grinding. This oil with "endurance beyond belief" reduces carbon trouble.

Stability The new Cycol will stand the hardest kind of usage. It is refined to meet the severer conditions of heat and pressure developed by the modern high compression engines, assuring you an unbroken oil film where heat, pressure and friction are greatest.

No Acids The new Cycol refining process eliminates the use of acids, though most refiners use them. While acids clear the "crude oil" they chemically change its structure and composition, thus seriously cutting its lubricating value.

The new refining process for Cycol is different in every respect. It selects from the "crude" those elements of greatest lubricating value and stability in performance, rejecting at the same those elements which readily break down under engine heat and cause excessive carbon deposits.

So Cycol gives a protective oil film on cylinder walls and moving parts, not vapor at the breather pipe.

Less Carbon As to carbon, Cycol like all other oils deposits some carbon. But it deposits less carbon than any other oil. The most exhaustive tests have proven that statement.

And even more important, the carbon that is deposited by Cycol is soft and easily removable. It is not hard of sticky and cannot scratch a cylinder.

Prove it Yourself For these reasons you will find that Cycol gives you the finest results you have ever known—more perfect lubrication, "endurance beyond belief" and the elimination of carbon troubles.

So fill your crank case with Cycol. You can identify it by the new transparent green-gold color.

Sold wherever the Associated Gasoline and Cycol Motor Oil signs are shown.

RODEO DESTINED TO DO MUCH TOWARD ADVERTISING UKIAH

"Coming events cast their shadows before." Men of broad vision can already see that Ukiah will shortly become one of the most widely advertised towns in the west for the shadow is already looming large on the horizon. Ukiah, Pendleton and Cheyenne will be spoken of together when people talk about rodeos.

Pendleton has a population of about 10,000 and has no large city closer than 200 miles to draw from. Cheyenne has about 15,000 inhabitants and the nearest large city is Denver, which is also about 200 miles distant. Ukiah will draw on a population of a million and a half in the same 200 mile radius, most of which lives in the bay cities. Ukiah is the gateway to the best stock country in the state and the Rodeo Association already have the best string of bucking horses to be found in the whole world—this may seem like a strong statement, and it is, but it is true. None of the other national rodeo associations own their own stock and have to depend on strings of horses brought from various places. In a whole string of horses there may be only one or two really good ones. The Ukiah association has only top horses which have been picked up all over the west, a few of which have never been ridden and which world champions doubt their ability to ride.

Both Pendleton and Cheyenne rodeos are community institutions. Along the same lines the Ukiah association is now being organized. Both of the above associations had a small beginning and now draw people from all over the world at their big annual events. All of the profits of the above named institutions are put back into the grounds, just like the Ukiah association intends to do, and now the Cheyenne show can accommodate 50,000 people and their grandstands are built of concrete and steel.

Everyone admits that last year all of the arrangements were not perfect and the management has profited by its mistakes and they are now being remedied. Last year we were troubled by too much dust but water mains are now being laid from the Ukiah municipal system and the track will be sprinkled regularly. Besides this last year all of the grounds had just been scraped and now all but the track has a good stand of sod. The sheds, stalls and pens are also being remodeled and moved to a more convenient location.

"What's in a name?" There is more in a name than most people imagine. Ukiah is an ideal name—it is euphonious, short, pronounced exactly like it is spelled, and last, but not least, has a wild Indian tinge that reminds one of cowboys, Indians and all that kind of stuff. Yes, Ukiah is a name to conjure with, and when capitalized will draw untold thousands to the community.

Mr. and Mrs. Harry Morris were over from Napa Sunday for a visit with heir son, F. F. Morris, and family.

I HAVE A LITTLE GARDEN

I have a little garden—
Maybe it isn't very large,
But it isn't really small,
That little patch of green
Beside the garden wall.

I have a little garden—
For years I've watched it,
Watched each flower come and go,
Budding in the springtime
After the winter's snow;
Blooming all the summer—
And fading in the fall;
My little garden of dreams
Beside the rock-bound wall.

I have a little garden—
With roses white and pure
Breathing fragrance from their folds:
With lilacs and bridal wreath,
Even tulips and marigolds,—
In my little garden by the wall.
—C. E. G.

ROSE DREAMS

Dawn! And out of the mist
Comes a whisper for life—
Comes the breath of a rose,
To bask in the morning sunlight.

Noonday! And the rose in its glory
Lends its fragrance to the limpid morn;
Unrivaled of form, fragrance and beauty.

Dusk! And the night winds wailing,
Mingled with moans from fir and from aspen
Disturb the quiet of twilight.
Calling our rose to its slumber.

Night! And the shadows enfold
And wrap the rose in twinkling starlight:
'Tis but the closing of a day;
And tomorrow the rose shall bloom again,
Even as sweet as yesterday.
—C. E. G.

Friday, May 25, the Ukiah grammar school auditorium will be the scene of a public session for all Boy Scouts of this district. Judge H. L. Preston, chairman of the court of honor, is in charge of the program, and, in connection with other features, advises that Scout Cleveland Hopkins will receive his Eagle badge at that time. Parents of all scouts, and the general public are invited to attend. At this meeting the new Calpella troop will receive its charter, and merit badges will be given to those who have earned them.

Local scouts, under the supervision of Scoutmaster R. M. Duncan, has been taking very constructive interest in many community events, and much praise is due them for their interest. At the council of honor on May 25, scouts who have given 12 or more hours service in community affairs will be presented with a special merit bar.

Lauwrence Waugh, scoutmaster for the past two years of American Legion Troop No. 30, has found it necessary to resign from that position for business reasons. Edgar Dutton, chairman of the troop committee and his associates were reluctant to accept his resignation, particularly in that he had served so faithfully for two years. Mr. Dutton and the committee are most happy in having learned that Ray Rollin Wilson will take up the work which Mr. Waugh reluctantly must give up. Mr. Wilson, as principal of the Ukiah grammar school is known to all, has had considerable experience in boys' work, and the committee is to be congratulated upon the fact that it could get Mr. Wilson to assume the responsibility of guiding our boys to better citizenship.

Fire Department Head Innocent Joke Victim

WILLITS, May 17.—In connection with the arrest of three women here this week on charges of chicken stealing, they are telling the following on Ray Walker, head of the Willits fire department:

A few weeks ago the fire department decided to have a big chicken feed and one of our local caterers was engaged to prepare the repast. These women, so it is told, found out who was going to serve the chickens and then got an order for the number desired and the night before robbed Ray Walker's henroost. It was a fine chicken feed and all of the members and visitors enjoyed it hugely. Strange to relate Walker does not seem able to see the joke.

Potter to Vote

(Continued from page 1)

let immediately for the complete installation of the irrigation system. It is the intention of the directors to press the project to an early completion so that everything in the way of construction will be completed this year.

Potter valley has been pioneering the way in Mendocino county in the matter of irrigation. It has always seemed feasible to put the whole of Coyote valley under irrigation, and indeed the entire Ukiah valley. An abundance of water has been flowing in the Russian river ever since the Snow Mountain company began diverting the water of Eel river. The importance of irrigation on the value of farming land is shown by a statement of a federal bank appraiser that he would double the appraised value of the lands of Potter valley for loan purposes when the irrigation system was installed and in operation.

The people of Potter valley are to be congratulated upon their vision and determination to form this district. It has been a slow process as there were many obsetacles to be overcome. It would seem, however, that everything has been accomplished successfully and from all indications there is no reason why the system should not be in full operation next year.

Mrs. Bunt Cox has been seriously ill the past few days with ulcers of the stomach, but is improving under the care of Dr. S. L. Rea.

Mr. and Mrs. Del Valle, of Oakland, are week end visitors in Ukiah. Mrs. Del Valle spent her girlhood in this county. She will be remembered by friends as May Newfield.

J. G. Wood was down from his ranch in Redwood valley the early part of the week.

A. S. Jenkins, well known Redwood valley rancher, was here on business one day this week.
